#### **DETAILED ACTION**

##### ***Response to Arguments***

1. Applicant's arguments filed March 11, 2008 with respect to claims 23 – 25 have been fully considered and are persuasive. The rejection of previous office action has been withdrawn.

##### ***Allowable Subject Matter***

2. Claims 23 – 25 are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance:

In the independent allowed claim, the limitation of the plurality of media modules being configured to store and retrieve data from the plurality of storage media, a second computing device configured to support the operation of at least one software application and comprising an interface module configured to receive from at least one of the plurality of media modules the data to be retrieved; a plurality of indexes, each of the plurality of indexes being stored on one of the first plurality of computing devices and being maintained by the respective media module, and a storage map stored on the third computing device and maintained by the retrieval manager, the storage map providing, through the retrieval manager, an indication to the interface module as to which of the plurality of indexes has information regarding the most recent location of the data to be retrieved from the at least one of the plurality of storage media is either directly or indirectly claimed. Such a limitation, in combination with other limitations of the independent claims was not taught by, would not have been fairly

suggested by, nor would have been obvious over the prior art of record. The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
